ASC Research and Innovation Grants Program 2025

Please ensure you read the [ASC Research and Innovation Grant Program 2025 Guidelines](#) prior to applying.

This grant is made available to address the following research question:

What are the costs associated with the governance and operating structures in the delivery of sport, and what are the major factors that contribute to these costs?

We are seeking to expand on our current understanding and analysis of known governance and operating models within sporting organisations (for example, federated, one management, unitary, and hybrid) including:

- The cost associated with the delivery of sport within each model
- The major characteristics of the models, and in particular the major factors within the models that contribute to the cost to deliver sport
- The effect that these costs have on organisational resilience and sustainability

Identifying good and promising practice within and beyond the sport sector.

Program Timeline

- **Applications Open: 20 January 2025, 9am AEDT**
- **Applications Close: 28 February 2025, 12pm AEDT**

In this section, you will be asked:

- to provide details for each member of the Research Group
- to provide Performance Evidence for each member of the Research Group

Information about Research Opportunity and Performance Evidence (ROPE) can be found within the [Australian Research Council \(ARC\) ROPE Statement](#)

Principal Investigator

Name of Investigator *

Please provide a brief outline of relevant Performance Evidence (max 250 words). Performance Evidence incorporates research activities, outputs and achievements evaluated in the context of research impact, as appropriate to each discipline, and research opportunity. *

Word count:

Must be no more than 250 words.

To enable evaluation of a researcher's Performance Evidence in the context of career and life opportunities and experiences, including, where relevant, significant career interruptions, please provide a statement related to your Research Opportunity. ROPE statements should be clear, contextualised, constructively presented, and contain all information necessary for assessors to evaluate research activities, outputs, achievements and impact relative to career and life opportunities and experiences. Significant career interruptions, where relevant, should be presented simply, quantified where possible, noting that the impact of the interruption may last longer than a defined period. Personal or confidential information should not be included. *
